Colección ARA

Con el nombre del río que comparte región con nuestra fábrica, el río Ara nace en el norte y recorre un largo camino que nutre y da vida allá por donde pasa.

Igual que el río, nuestra empresa sabe la importancia de incentivar la economía local. Por ello los productos de MZ del Río están fabricados, diseñados y montados en Zaragoza, España en las instalaciones situadas en el polígono Empresarium.

También conocemos la importancia del agua como un bien que es necesario conservar, por ello nuestros productos tienen sistemas y componentes los cuales se encargan de reducir el consumo de agua y energía sin perder el confort.

Así mismo trabajamos con materiales, como el latón de origen europeo de alta calidad, que nos permiten fabricar productos duraderos en el tiempo y que cuidan tu salud.

Collection ARA

Est le nom de la rivière qui partage la région avec notre usine, la rivière Ara prend sa source au nord et parcourt un long chemin qui nourrit et donne vie sur son passage.

Nous connaissons également l'importance de l'eau en tant que bien qui doit être conservé, c'est pourquoi nos produits ont des systèmes et des composants qui réduisent la consommation d'eau et d'énergie sans perdre notre confort.

Depuis notre usine de Saragosse (Espagne), nous travaillons avec des matériaux, tels que le laiton de haute qualité d'origine européenne, qui nous garantissent la fabrication des produits durables et qui prennent soin de votre santé.

Named after the river that shares the region with our factory, the Ara River rises in the north and runs a long way that nourishes and gives life wherever it passes.

We also know the importance of water as a good that needs to be conserved, which is why our products have systems and components that are responsible for reducing water and energy consumption without losing comfort.

From our factory in Zaragoza (Spain), we work with materials, such as high-quality brass of European origin, which allow us to manufacture long-lasting products that take care of your health.
